Supplemental Environmental Project
Second Semi-Annual Report
July 1, 2005, through December 31, 2005

1. Introduction

KUB is required to perform and complete a Supplemental Environmental Project (SEP) as set forth in Section VIII. Supplemental Environmental Project and Appendix B Supplemental Environment Project of the Consent Decree (CD). This project was undertaken in connection with the settlement of a civil enforcement action taken by the United States for violations of the Clean Water Act. This Semi-Annual Report covers events from July 1, 2005 through December 31, 2005.

In addition to the required SEP funding, KUB has also voluntarily established a low-income, no interest loan program. This program will serve customers earning 60 percent of the median income. The cost of the lateral repair or replacement will be added to the customers’ bill over a period of 48 months.

2. Deposit of Funds to the SEP Escrow by KUB

KUB made the second deposit of $150,000 to the Escrow Account on August 11, 2005. A copy of the deposit documentation for that payment was submitted to EPA on September 7, 2005 and is in Appendix A.

3. Disbursement of Funds From the SEP Escrow by Escrow Agent to the Third Party Administrator to Pay Plumbers for Services Completed

As of December 31, 2005, no disbursements have been made from the SEP Escrow Account. Three defective laterals were replaced during this reporting period. Disbursements from the Escrow Account will be made to the Third Party Administrator upon receipt of an invoice and supporting documentation for each lateral replacement.

4. Balance of Funds in the SEP Escrow

The balance in the SEP Escrow Account, as of December 31, 2005, is $304,376.35. The deposits to the escrow account and the accrued interest for this reporting period are shown in the table below.

7. SEP Implementation Tasks

Third Party Administrator
KUB and Knoxville-Knox County Community Action Committee (CAC) signed a Statement of Work on June 10, 2005 that authorized CAC to begin work on program set-up activities for administering the SEP. Under this Statement of Work, CAC developed a Policies and Procedures Handbook for the Pace 10 Residential Assistance Program. The handbook contains a copy of the Plumbing Contractor Contract used by CAC for the work bid to each plumber.
The contract between CAC and KUB establishing CAC as the Third Party Administrator was finalized and signed in August 2005. A copy of the contract is in Appendix B.

**Private Lateral Tracker**
KUB completed development of a Lotus Notes information management system (IMS) application, called the Private Lateral Tracker, to track the Program’s enforcement response, issuance of City plumbing permits, and CAC’s activity for SEP eligible customers. KUB uses the IMS to track inspection, property ownership, enforcement notification, the appeal process, and other customer communications from initial lateral inspection through completion of the repair or replacement of the lateral. Sample screen shots of the IMS are in Appendix C.

The IMS is designed to also collect and track information for the City of Knoxville and CAC. The City of Knoxville enters information about the date the plumbing permit is issued, the date the final inspection is complete, and when reminder notices are sent by the city to the property owner under the City of Knoxville tab in the IMS. CAC enters information under the Res. Assistance tab to capture the initial contact with the customer, approval for assistance, cost of repair or replacement, and key dates associated with the repair or replacement of the lateral. The City of Knoxville and CAC can also view the information entered by KUB. KUB trained City of Knoxville and CAC personnel on the use of the IMS.

8. **Tasks Scheduled for the Next Six Months**

The following tasks are scheduled for the next six months:
- Continue to identify property owners with defective laterals or prohibited connections
- Continue private lateral enforcement response
- Make payments from the Escrow account for work completed under the SEP
