

Kingston Pike

Water Main Replacement Project

Project Information Sheet

8/30/19

Project Scope

- Upgrade the water distribution system in this area in response to increasing number of main breaks
- Part of KUB's system-wide Century II utility infrastructure program to replace older galvanized and cast iron water pipe with ductile iron

Project Overview

- KUB Underground Construction crews will replace 700 feet of cast iron water main with ductile iron
- Work includes tie-ins to recently installed water main on Homberg Drive and existing ductile iron water main on Westwood Road
- Replacement of valves and fire hydrants
- Customer service line and fire line connections

Project Details

- Safety of the public and workers during this project is KUB's highest priority
- Construction methods include boring and open-cut trenching
- Existing water main and services will remain active until construction and tie-ins to the new water mains are completed
- Property and pavement will be restored after construction
- Milling and paving of affected lanes following water main installation

Traffic Impacts

- Center turn lane on Kingston Pike will be closed for water main installation continuously starting September 15 through mid-October 2019
- Additional lane closures and shifts will be required during overnight work hours, 7 p.m.–6 a.m., on this stretch of Kingston Pike for main, service line, fire line, and hydrant connections
- All lanes except center turn lane will reopen outside of work hours
- Sidewalk closures in immediate work zones
- Access to businesses and parking areas maintained
- Electronic message boards will be placed on the east and west ends of Kingston Pike approaching the work zone to alert motorists to changing traffic patterns
- Additional traffic control measures will be in place, including barrels, signs, and channeling devices for lane shifts

Project Schedule

- Construction prep work, including asphalt saw-cutting, and mobilization requiring temporary lane closures and shifts will begin the week of September 9
- Construction performed during overnight hours - 7 p.m.–6 a.m.

KUB Century II Program

Century II is KUB's long-range program to improve and maintain our utility systems for our customers. It will help move KUB

into our second century of service through sound planning, resource allocation, and continued or accelerated investment. Century II reflects KUB's commitment to provide reliable utility services and meet customers needs—now and in the future. Anticipating and addressing needs now provides long-term benefits. Visit www.kub.org for more details about the Century II program.
