

Quarterly Progress Report

Volume 2

**Third Quarter Report
July 1 through September 30, 2005**

Submitted to EPA on October 28, 2005

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering such information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Table of Contents

Executive Summary	1
Section 1 Phase 1 Corrective Action Plan/Engineering Report (CAP/ER) and Phase 2 CAP/ER	1
Section 2 Comprehensive Performance Evaluation Program and Composite Correction Plan	4
Section 3 Process Controls Program	5
Section 4 Capacity Assurance Program	6
Section 5 Transfers of Ownership	7
Section 6 Compliance and Non-Compliance With the Consent Decree	8
6.1 Submission of Deliverables	8
6.2 Violations Subject to Stipulated Penalties	10
Section 7 Sanitary Sewer Overflows (SSOs), Bypasses, Diversions, and Effluent Limit Violations	12
7.1 SSOs	12
7.2 Building Backups	12
7.3 Bypasses and Diversions	13
7.4 Effluent Limit Violations	13
Section 8 Water Quality Monitoring Data	15
8.1 Sampling Conducted and Results	15
8.2 Projected Data Collection	15
Appendices	
Appendix A Authorized Sewer Connections	
Appendix B SSOs	
Appendix C Building Backups	
Appendix D Water Quality Monitoring Data	

Executive Summary

On February 11, 2005, the Knoxville Utilities Board (KUB) entered into a Consent Decree with the United States, the State of Tennessee, the Tennessee Clean Water Network, and the City of Knoxville. The following Quarterly Progress Report is submitted to fulfill the reporting requirements described in Section XIX of the Consent Decree.

Consent Decree language, pages 82-83: "*Beginning thirty (30) Days after the first Calendar Quarter following the Date of Entry, and thirty (30) Days after each Calendar Quarter thereafter until termination of the Consent Decree, KUB shall submit to the Parties, and simultaneously place in the PDR, a Quarterly Progress Report. Quarterly Progress Reports shall not be subject to the Public Review Requirement of Section VI.A.2. However, KUB shall receive questions and comments from the public for KUB's review for a period of twenty (20) Days following placement in the PDR. Each Quarterly Progress Report shall contain:*

1. *A summary of compliance with and activities related to implementation of the Phase 1 CAP/ER and Phase 2 CAP/ER, including: the status of construction projects in comparison to the schedules that have been established pursuant to the Consent Decree for those projects; and schedule deadlines and milestones achieved during Calendar Quarter and expected during the next Calendar Quarter;*
2. *A summary of compliance with and activities related to implementation of the CPE and CCP;*
3. *A summary of implementation of and compliance with the Process Controls Program;*
4. *A summary of the implementation of the Capacity Assurance Program for the Calendar Quarter, including the number of, and anticipated flow from, sewer connections that have been authorized, by Sewerbasin, a description of the projects that have been authorized and the number of credits earned and banked by KUB that will be expended for those projects, by Sewerbasin, and any exceptions granted for connections for essential services;*
5. *Identification of any transfer of an ownership interest, operation, management, or other control of the Treatment Works, or any portion thereof;*
6. *A description of the status of compliance or non-compliance with the requirements of this Decree and, if applicable, the reasons for non-compliance, including a list of all violations that are subject to stipulated penalties under Section X of this Decree;*
7. *A spreadsheet and summary of all SSOs, Bypasses, Diversions and effluent limit violations that occurred during the previous Calendar Quarter. Information on Building Backups may be provided in separate spreadsheets and summaries from other SSOs. The spreadsheets and summaries shall identify:
 - a. For all SSOs, the location, source, date, time, duration, pathway (if any), receiving water (if any), the reason for each SSO, the total SSO volume, the volume returned to the WCTS, and the volume not captured;
 - b. For all Bypasses and Diversions, the location, date, time, duration, volume and reason for each Bypass and Diversion; and the total Bypass and Diversion volumes;
 - c. For all effluent limit violations, all information required to be reported on KUB's Discharge Monitoring Reports.*
8. *The water quality monitoring data and other information required pursuant to Section VII.D.1.(e),(v);*"

KUB compiled this Quarterly Progress Report to detail the events that occurred during the third quarter of 2005 from July 1 until September 30. This is the second quarterly report required of KUB under this Consent Decree. The Consent Decree requirements pertaining to the Phase 1 CAP/ER, Phase 2 CAP/ER, Comprehensive Performance Evaluation, Composite Correction Plan, and Capacity Assurance Program will not be fulfilled in this report since they have not become due; rather, a description of the status of development for those programs is given. A status update is also provided for the Process Controls Program, which is being revised in accordance with EPA's comments. The Consent Decree reporting requirements for those programs will be met after EPA has approved each of the deliverables.

Report Organization

Section 1: Phase 1 CAP/ER and Phase 2 CAP/ER – Summarizes the status of the development of these deliverables.

Section 2: Comprehensive Performance Evaluation and Composite Correction Plan – Summarizes the status of the development of these deliverables.

Section 3: Process Controls Program – Summarizes the status of the development of this deliverable.

Section 4: Capacity Assurance Program - Summarizes the status of the development of this deliverable.

Section 5: Transfers of Ownership – Identifies any transfers of ownership interest, operation, management, or other control of the treatment works, or any portion thereof.

Section 6: Compliance and Non-Compliance with the Consent Decree – Describes the status of compliance or non-compliance with requirements of this Consent Decree.

Section 7: SSOs, Bypasses, Diversions, and Effluent Limit Violations – Provides a spreadsheet and summary of all SSOs, Bypasses, Diversions, and effluent limit violations.

Section 8: Water Quality Monitoring Data – Summarizes all sampling that was conducted, the results of the sampling, and the projected data collection for the fourth quarter of 2005.

Status of Deliverables

Below is a list of significant dates on which KUB submitted deliverables to EPA or received approval for deliverables. To date, KUB has submitted all deliverables in accordance with the schedule set forth in the Consent Decree.

July 8, 2005

- Submitted to EPA – Continuing Sewer System Assessment Program
- Submitted to EPA – Process Controls Program

July 28, 2005

- Submitted to EPA – Quarterly Progress Report second quarter 2005
- Submitted to EPA – SEP Periodic Report first period 2005
- Approved by EPA – Revised Sewer Overflow Response Plan
- Approved by EPA – Continuing Sewer System Assessment Program

August 5, 2005

- Submitted to EPA – Water Quality Monitoring Program

September 16, 2005

- Requested extension for responding to EPA comments on the Process Controls Program due to scheduling conflicts that arose when trying to meet with TDEC and EPA to discuss comments in more detail

September 28, 2005

- Approved by EPA (upon inclusion of specified condition) – Water Quality Monitoring Program

Section 1 Phase 1 CAP/ER and Phase 2 CAP/ER

Consent Decree language, pages 82-83: "Each Quarterly Progress Report shall contain... A summary of compliance with and activities related to implementation of the Phase 1 CAP/ER and Phase 2 CAP/ER, including the status of construction projects in comparison to the schedules that have been established pursuant to the Consent Decree for those projects; and schedule deadlines and milestones achieved during Calendar Quarter and expected during next Calendar Quarter."

KUB began developing a Corrective Action Plan/Engineering Report (CAP/ER) in January 2004, following the completion of the Phase 1 Sanitary Sewer Overflow Evaluation Report (SSOER) required by the Agreed Order with the Tennessee Department of Environment and Conservation (TDEC) and, subsequently, the Consent Decree. The objective of the Phase 1 CAP/ER is to identify facility improvements needed to alleviate SSOs occurring in the collection system during the period of 2001–2004 and to support future growth needs. The Phase 1 CAP/ER will be submitted to EPA by November 1, 2005. The Phase 2 CAP/ER will be submitted to EPA within 12 months after EPA approval of the SSOER Annual Update submitted on April 30, 2008.

Current Capital Improvement Plan for FY 04/05

The following is a list of facility improvement projects included in the Capital Improvement Plan for FY 04/05 (July 1, 2004, to June 30, 2005) and FY 05/06 (July 1, 2005, to June 30, 2006). These projects were in various stages during the reporting period including preliminary engineering, design, construction, and completion. Many of these projects are "find and fix" rehabilitation projects. Find work is defined as the inspection (i.e. flow monitoring, CCTV, manhole inspections, smoke testing, etc.) and design phase of the project. Fix is defined as the construction phase that may include manhole rehabilitation/replacement, main line rehabilitation/replacement, and lower lateral rehabilitation/replacement. Other projects are trunkline capacity improvements or wet-weather storage. Each of these projects is considered part of the overall Phase 1 CAP/ER.

KUB has completed development of the Phase 1 CAP/ER. The document will receive public comments from September 12 until October 12, 2005 and will be submitted by November 1, 2005.

First Creek

1. **Fountain Road** - Upsize 3,700 linear feet (lf) of gravity sewer using open cut and pipe bursting methods. Replace manholes and services. [Complete]
2. **Fair Drive Phase II** - Rehabilitate 3691 lf and replace 2458 lf of existing 8-12 inch gravity sewer along Fair Drive. [Complete]
3. **Greenfield Lane** - Replace approximately 3,300 lf of existing sewer with 8-inch and 12-inch PVC and ductile iron pipe. [Complete]
4. **Whites Creek Phase III** - Replace 300 lf of 12-inch, 300 lf of 16-inch, 2,700 lf of 24-inch, and 5,000 lf of 36-inch sewer. [Complete]
5. **First Creek Sub-basins 3 and 4 Rehabilitation** - Find and fix rehabilitation in First Creek sewer basin in the Fountain City area (mini-basins 03B1, 03B2, and 04B2). Project

- includes inspection (CCTV, smoke test, manhole inspections), design, rehabilitation of 265,000 lf of lines requiring repair, and replace 10,5000 lf of sewer. [Complete]
6. **First Creek 8A1** - Find and design rehabilitation projects in First Creek sewer basin in the North Knoxville area around North Broadway and I-640. Project includes inspection (CCTV, smoke test, manhole inspections), design, rehabilitation of 21,067 lf, and replace 10,273 lf of sewer. Construction will be scheduled when design is complete and will occur in several phases of work.
 7. **Upper First Creek Storage** - Design 9 million gallon (MG) wet-weather storage tank to control sewer overflows near Old Broadway during rain events. Construction is underway.
 8. **Lower First Creek Storage** - Design 5 MG wet-weather storage tank to control sewer overflows near North Hoitt Avenue during rain events. Construction is underway.

Second Creek

1. **Second Creek Sub-basin 15 Rehabilitation** - Rehabilitate approximately 23,500 lf of pipe in mini-basin 15D2. Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. Construction is underway.
2. **Second Creek Pilleaux PS Collector** - Rehabilitate 19,600 lf of collection system piping in mini-basin 05A4. Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. Construction is underway.
3. **Second Creek 23E1** - Find and design rehabilitation needs for mini-basin 23E1. A total of 28,067 lf of pipe is to be inspected. Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. Construction is underway.

Third Creek

1. **Mynderse, Western, and Canna** - Replace approximately 1,700 lf of 8-inch sewer and pipe-burst approximately 3,400 lf of 8-inch up to 10-inch and 12-inch pipe to address wet-weather capacity restrictions resulting in overflows near Pleasant Ridge Road. [Complete]
2. **Third Creek Storage** - Design 4.5 MG wet-weather storage tank to control sewer overflows near Western Avenue and Third Creek Road during rain events. Preliminary design underway.
3. **Third Creek 28B1*** - Find and design rehabilitation needs for collectors in mini-basin 28B1 (approximately 7,900 lf of pipe). Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. Plans will be developed for future rehabilitation.
4. **Third Creek Basin 11** - Find and design rehabilitation needs for collectors in sub-basin 11 (approximately 129,657 lf). Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. Construction will be scheduled when design is complete.
5. **Third Creek Basin 9** - Find and design rehabilitation methods for collectors in sub-basin 9 (approximately 177,900 lf). Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. Construction will be scheduled when design is complete.

Fourth Creek

1. **Papermill Drive Phases I, II, and III** - Design and construct replacement of approximately 4,000 lf of 15-inch and 18-inch sewer in the Papermill Drive area to increase conveyance capacity and reduce sewer overflows. [Phases I & III are complete]
2. **Pinebrook Drive Sewer Replacement** - Design and construct replacement of 330 lf of 8-inch gravity sewer that has been partially exposed by erosion of the bank of the adjacent drainage channel. [Complete]
3. **Walker Springs Rehabilitation (Mini-Basin 32A4)** - Perform, find, and design work in mini-basin 32A4 in the Walker Springs area. Inspection includes 43,000 lf of smoke testing, 43,000 lf of CCTV, and 228 manhole inspections. Plans will be developed for future rehabilitation work.
4. **Walker Springs Storage** - Design and begin construction on 3.6 MG wet-weather storage tank to control sewer overflows near Walker Springs Pump Station during rain events. Construction is underway.

South Knox

1. **Maryville Pike** - Design and construct replacement of 800–1,200 lf of 24-inch sewer located in Witherspoon Superfund site. Design will reroute sewer around site. [Complete]
2. **South Haven Phase I and Phase II** - Relocate, rehabilitate, and upsize approximately 4,700 lf of existing collector sewers to increase conveyance capacity and reduce I/L. [Complete]
3. **Island Home Rehabilitation** - Rehabilitate 9,400 lf and replace 1,200 lf of collector sewers to reduce I/L. [Complete]
4. **East Ford Valley Rehabilitation** - Rehabilitate approximately 16,000 lf of sewers in mini-basin 41A4. Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. [Complete]
5. **South Haven Rehabilitation Phase III** - Rehabilitate approximately 21,700 lf of sewers in mini-basin 40F1. Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. Construction is underway.
6. **Stone Road Rehabilitation** - Rehabilitate approximately 13,500 lf of sewers in mini-basin 41B1. Project includes inspection (CCTV, smoke test, manhole inspections), design, and rehabilitation of lines requiring repair. 95% complete.

Williams Creek

1. **Delrose Force Main Replacement** - Design and construct replacement of approximately 5,000 lf of 16-inch ductile iron pipe force main that has severe structural problems. [Complete]
2. **Williams Creek Trunk Line Replacement** - Design and construct replacement of approximately 3,700 lf of 24-inch sewer to correct structural problems. Construction is underway.

*The project named Third Creek 28B1 replaces Third Creek 28C1 that appeared in the Quarterly Progress Report for the Second Quarter 2005. After additional studies, it was determined that flows from 28B1 more likely contributed to overflows listed in the SSOER along Sutherland Avenue and North Bellemade.

Section 2 Comprehensive Performance Evaluation Program (CPE) and Composite Correction Plan (CCP)

Consent Decree language, pages 82-83: "Each Quarterly Progress Report shall contain... A summary of compliance with and activities related to implementation of the CPE and CCP."

KUB, along with representatives from KUB's consultant Camp Dresser and McKee Inc. (CDM), have been progressing through the subtasks described in the approved Comprehensive Performance Evaluation (CPE) Initial Scope. This deliverable is on schedule to be submitted by February 28, 2006. Below is a completion summary of tasks and subtasks associated with the development of the CPE.

<u>Task Series</u>	<u>% Complete</u>
Task Series 100 – Kickoff Meeting	100
Task Series 200 – WWTP Tours	100
Task Series 300 – Data Collection and Assessment	
Subtask 301 – Data Collection	100
Subtask 302 – Assessment of Data	75
Subtask 303 – Wet Weather Flow and Loading Analysis	10
Subtask 304 – Identification of Need for Additional Data	75
Task Series 400 – Evaluation of Major Unit Processes	
Subtask 401 – Evaluations Based on Industry Standards	98
Subtask 402 – Evaluation of Activated Sludge System for Fourth Creek WWTP	40
Subtask 403 – Evaluation of Activated Sludge System for Kuwahee and Loves Creek WWTPs	40
Subtask 404 – Stress and/or Pilot Testing	TBD
Task Series 500 – Evaluation of Performance Limiting Factors	
Subtask 501 – Evaluation of Unit Process Design Capacity	60
Subtask 502 – Evaluation of Hydraulic Capacity	50
Subtask 503 – Evaluation of Process Controls	50
Subtask 504 – Evaluation of Process Measurements	60
Subtask 505 – Evaluation of Operations Practices	50
Subtask 506 – Evaluation of Plant Operations Capacity	50
Subtask 507 – Evaluation of System Reliability	50
Task Series 600 – CPE Memoranda and Reports	50
Task Series 700 – Process Controls Program Development	80

In compliance with the CD, the Composite Correction Plan (CCP) recommendations for rehabilitation and/or upgrades to the Kuwahee, Fourth Creek, and Lives Creek WWTPs will be addressed following the results of the CPE.

Section 3 Process Controls Program

Consent Decree language, pages 82-83: "Each Quarterly Progress Report shall contain... A summary of implementation of and compliance with the Process Controls Program."

KUB received notification from EPA on September 9, 2005, that the Process Controls Program (PCP) was disapproved and should be revised according to EPA comments. On September 16, 2005, KUB submitted a request for extension to EPA. That request was granted on October 3, 2005, extending the re-submittal date to November 8, 2005. Representatives from KUB and CDM met with EPA and TDEC on September 30, 2005 to discuss comments and revisions.

Following EPA approval of the PCP, KUB will implement the program in accordance with the following schedule:

	<u>Days From Approval Date</u>
Procure and install additional sampling and monitoring equipment (high flow samplers and TSS meters)	60
Complete supporting standard operating procedures (SOPs)	60
Complete refresher training for operations staff	90

Section 4 Capacity Assurance Program

Consent Decree language, pages 82-83: "*Each Quarterly Progress Report shall contain... A summary of the implementation of the Capacity Assurance Program for that Calendar Quarter, including the number of, and anticipated flow from, sewer connections that have been authorized, by Sewerbasin, a description of the projects that have been authorized and the number of credits earned and banked by KUB that will be expended for those projects, by Sewerbasin, and any exceptions granted for connections for essential services.*"

KUB personnel and KUB's consultant CDM, are developing the Capacity Assurance Program (CAP) to satisfy the requirements of the Consent Decree. A final draft will be completed by mid-November for internal KUB review. This deliverable will be submitted to EPA by February 10, 2006.

KUB is continuing to evaluate and manage new wastewater connections using its existing CAP based on the TDEC Agreed Order until the Consent Decree CAP is approved.

Appendix A contains a list of all new wastewater service connections that have been applied for and approved for service since the TDEC CAP was implemented in May 2004. The list also shows the approved wastewater connections that have been approved but have not yet started wastewater service.

Section 5 Transfers of Ownership

Consent Decree language, pages 82-83: "*Each Quarterly Progress Report shall contain... identification of any transfer of an ownership interest, operation, management, or other control of the Treatment Works, or any portion thereof.*"

There has been no transfer of an ownership interest, operation, management, or other control of the Treatment Works, or any portion thereof, during this reporting period.

Section 6 Compliance and Non-Compliance With the Consent Decree

Consent Decree language, pages 82-83: "*Each Quarterly Progress Report shall contain...A description of the status of compliance or non-compliance with the requirements of this Decree and, if applicable, the reasons for non-compliance, including a list of all violations that are subject to stipulated penalties under Section X of this Consent Decree.*"

6.1 Submission of Deliverables

To date, KUB has submitted all deliverables in accordance with the schedule set forth in the Consent Decree. The following sections detail all activity related to deliverables that occurred during the past quarter. The dates each submittal was available for public comment in the Public Document Repository (PDR), when the deliverable was submitted to EPA, when EPA responded with comments, when KUB responded to those comments, and when EPA approval was received are noted for each deliverable.

6.1.1 Continuing Sewer System Assessment Program

Consent Decree language, page 26: "*No later than one-hundred and fifty (150) Days after the Date of Entry, KUB shall submit a CSSAP to analyze the infrastructure of the WCTS.*"

KUB placed the Continuing Sewer System Assessment Program in the PDR on May 25, 2005. This Review Level 1 Deliverable was available for public comment from May 25, 2005, until June 25, 2005. No comments were received during that period. KUB submitted this deliverable on July 8, 2005. EPA approved this deliverable on July 28, 2005. This program has been actively implemented since approval.

6.1.2 Process Controls Program

Consent Decree language, page 57: "*No later than one-hundred and fifty (150) Days after the Date of Entry, KUB shall submit a Process Controls Program for the Kawahoe, Fourth Creek and Lovers Creek WWTPs for use during wet weather operating conditions.*"

KUB placed the Process Controls Program in the PDR on May 25, 2005. This Review Level 1 Deliverable was available for public comment from May 25, 2005, until June 25, 2005. No comments were received during that period. KUB submitted this deliverable on July 8, 2005. EPA disapproved the PCP on September 9, 2005. Due to the extent of the comments and delays in scheduling a meeting with TDEC and EPA to discuss in greater detail, KUB requested a 30-day extension on September 16, 2005. EPA approved the extension on October 3, 2005. This deliverable will be resubmitted by November 8, 2005.

6.1.3 Water Quality Monitoring Report

Consent Decree language, page 50: "*No later than one-hundred and eighty (180) Days after Date of Entry, KUB shall submit the Water Quality Monitoring Program described below to: (a) identify Unpermitted Discharges originating at sewer pipe creek crossings and other isolated or remote sewer locations adjacent to or in proximity to waterways; (b) locate the source or sources of such Unpermitted Discharges; and (c) assess the impact upon the environment and public health of such Unpermitted Discharges.*"

KUB placed the Water Quality Monitoring Program in the PDR on June 20, 2005. This Review Level 1 Deliverable was available for public comments from June 20, 2005, until July 21, 2005. No comments were received during that period. KUB submitted this deliverable on August 5, 2005. EPA approved this deliverable on September 28, 2005 upon inclusion of a specified condition. The specified inclusion to the Program was to add the Knox County Phase 2 MS4 program to the list of agencies that might be notified in case a discharge is identified through KUB's Water Quality Monitoring Program that is unrelated to a KUB sewer problem. KUB will respond to the comments from EPA and post the revised version of this deliverable in the PDR by October 28, 2005.

6.1.4 Quarterly Progress Report Second Quarter 2005

Consent Decree language, pages 82-83: "*Beginning thirty (30) Days after the first Calendar Quarter following the Date of Entry, and thirty (30) Days after each Calendar Quarter thereafter until termination of the Consent Decree, KUB shall submit to the Parties, and simultaneously place in the PDR, a Quarterly Progress Report.*

On July 28, 2005, KUB submitted to EPA and placed in the PDR the Quarterly Progress Report for the second quarter 2005. This deliverable was not subject to the Public Review Requirement of Section VI.A.2, but it was available for public comment from July 28, 2005, until August 17, 2005. No comments were received during that period.

6.1.5 SEP Periodic Report First Period 2005

Consent Decree language, page 61: "*While the SEP is being planned and implemented, KUB shall submit semiannual reports to the Parties describing the progress of the SEP up to and during the most recent Calendar Quarter within one (1) Month after the end of the second and fourth Calendar Quarters following the Date of Entry.*"

On July 28, 2005, KUB submitted the SEP Periodic Report for the first period 2005 to EPA. This deliverable was not subject to public review but was posted in the PDR at the time of submission.

6.1.6 Phase 1 Corrective Action Plan/Engineering Report

Consent Decree language, page 23: "*On or before November 1, 2005, KUB shall submit a Phase 1 Corrective Action Plan/Engineering Report ("Phase 1 CAP/ER") to address the conditions causing SSOs with the goal of eliminating the SSO locations on the Long-Term List.*"

On September 12, 2005, KUB placed the Phase 1 CAP/ER in the PDR. This Review Level 1 Deliverable is available for public comment until October 12, 2005, and will be submitted to EPA by November 1, 2005.

6.1.7 Infrastructure Rehabilitation Program

Consent Decree language, page 28: "*No later than ninety (90) Days after EPA approval of the CSSAP, KUB shall submit an IRP.*"

On September 14, 2005, KUB placed the Infrastructure Rehabilitation Plan in the PDR. This Review Level 1 Deliverable is available for public comment until October 14, 2005, and will be submitted to EPA by October 26, 2005.

6.1.8 Emergency Response Plan

Consent Decree language, page 53: "*No later than two-hundred and seventy (270) Days after the Date of Entry, KUB shall submit an Emergency Response Plan.*"

On September 19, 2005, KUB placed the Emergency Response Plan in the PDR. This Review Level 1 Deliverable is available for public comment until October 19, 2005, and will be submitted to EPA by November 7, 2005.

6.2 Violations Subject to Stipulated Penalties

During this reporting period, KUB incurred 12 Unpermitted Discharges. The majority (six) were related to heavy rainfall. Three events were due to blockages caused by debris, two events were due to a ruptured force main, and one event occurred as a construction failure due to insufficient pump capacity at a third-party temporary bypass pumping station required to accommodate the relocation of sewer lines as part of a new commercial development. Table 1 below lists all violations subject to stipulated penalties as outlined in the Consent Decree.

Table 1. Violations Subject to Stipulated Penalties

Violation	Date	Address	Cause
Unpermitted Discharge	7/7/05	2505 Delrose Avenue	Heavy rainfall
Unpermitted Discharge	7/7/05	2612 Western Avenue	Heavy rainfall
Unpermitted Discharge	7/7/05	438 Maryville Pike	Heavy rainfall
Unpermitted Discharge	7/7/05	816 Baxter Avenue	Blockage - Debris
Unpermitted Discharge	7/19/05	1400 Marconi Drive	Heavy rainfall
Unpermitted Discharge	7/19/05	600 N. Gallaher View Road	Heavy rainfall

Violation	Date	Address	Cause
Unpermitted Discharge	7/27/05	1620 N. Central Avenue	Blockage - Debris
Unpermitted Discharge	8/13/05	1335 New York Avenue	Heavy rainfall
Unpermitted Discharge	8/13/05	2647 Woodrow Avenue	Construction failure - Insufficient pump capacity at a third-party temporary bypass pumping station
Unpermitted Discharge	8/21/05	1900 Maplewood Drive	Blockage - Debris, collapsed manhole
Unpermitted Discharge	8/29/05	8312 Cortland Drive	Broken pipe
Unpermitted Discharge	8/29/05	8206 Glenrothes Boulevard	Broken pipe

Section 7 SSOs, Bypasses, Diversions, and Effluent Limit Violations

Consent Decree language, pages 82-83: “*Each Quarterly Progress Report shall contain... A spreadsheet and summary of all SSOs, Bypasses, Diversions, and effluent limit violations that occurred during the previous Calendar Quarter. Information on Building Backups may be provided in separate spreadsheets and summaries from other SSOs. The spreadsheets and summaries shall identify:*

- a. *For all SSOs, the location, source, date, time, duration, pathway (if any), receiving water (if any), the reason for each SSO, the total SSO volume, the volume returned to the WCTS, and the volume not captured;*
- b. *For all Bypasses and Diversions, the location, date, time, duration, volume and reason for each Bypass and Diversion; and the total Bypass or Diversion volumes;*
- c. *For all effluent limit violations, all information required to be reported on KUB's Discharge Monitoring Reports.*”

7.1 SSOs

Appendix B lists all SSOs that occurred during this reporting period. During this period, there were 21 SSO events. Of that number, six were due to heavy rainfall, six were due to blockages by either grease, debris, or a combination thereof, four were due to broken pipe, two were due to mechanical failure of a grinder pump, one occurred due to mechanical failure at a pump station, one was due to construction failure (failed third-party bypass pumping), and one occurred at Kuwahee WWTP. The majority of events (12) were in the 0 – 1000 gallons volume range. Five events ranged from 1001 – 10,000 gallons, and four events were greater than 10,000 gallons. Durations for events during this period are as follows: 13 ranged from 0 – 2 hours, three ranged from 2.1 – 5 hours, and five lasted more than five hours.

Three of the SSOs were significant events totalling 3,539,430 gallons, of which 260,900 gallons were recovered. Two of those significant events (Cortland Drive on 8/29/05 and Glenrothes Boulevard on 8/29/05 totaling 2,705,120 gallons) were related to a ruptured force main due to an undetermined cause. The initial break was repaired but resulted in another break upstream. Since recovery equipment was already on site for the initial break, a significant portion of the discharge was recovered from the subsequent event. The third significant event (Woodrow Drive on 8/13/05, 834,310 gallons) was due to insufficient pump capacity at a third-party temporary bypass pumping site required to accommodate the relocation of sewer lines as part of a new commercial development.

7.2 Building Backups

Appendix C lists all Building Backups that occurred during this reporting period. During this period, there were 12 Building Backups. Causes for these events are as follows: five were due to a blockage, five were the result of construction failure, and two occurred due to flushing operations.

7.3 Bypasses and Diversions

No Bypasses occurred during this reporting period.

One Diversion occurred during this reporting period (Table 2). The Diversion occurred at the Kuwahee WWTP and was attributed to a high flow event due to excess rainfall. No Diversions occurred at Fourth Creek or Loves Creek WWTPs during this period.

Eastbridge WWTP does not bypass or divert flows. The total Diversion volume for the reporting period was 3.94 MG.

7.4 Effluent Limit Violations

Table 3 contains all effluent limit violations that occurred during this reporting period. The table contains the information as it is reported in KUB's Discharge Monitoring Reports. During this reporting period, one effluent limit violation occurred at Kuwahee WWTP, two occurred at Eastbridge WWTP, and one occurred at the Ritta School WWTP. One was a violation of fecal coliform and three were violations of ammonia limits. No effluent limit violations occurred at Fourth Creek WWTP or Loves Creek WWTP during the reporting period.

Table 2: Bypasses and Diversions

WWTP	Did an event occur?	Type of Event	Date diversion gate opened	Time diversion gate opened	Date diversion gate closed	Time diversion gate closed	Date diversion flow reported	Duration (hrs)	Volume (MG)	Reason for Event
Kuwahae	Yes	Diversions	7/17/05	12:20	7/17/05	16:35	7/17/05	4.25	3.94	High flow event due to excess rainfall
Fourth Creek	No									
Levers Creek	No									
Eastbridge	No									

Table 3: Effluent Limit Violations

WWTP	Did an event occur?	Date	Parameter	Type	Limit	Value
Kuwahae	Yes	8/14/05	Daily Max	Fecal	1000 cfu	2800 cfu
Fourth Creek	No	-	-	-	-	-
Loves Creek	No	-	-	-	-	-
Eastbridge	Yes	7/25/05	Daily Max	Ammonia	10 mg/l	10.6 mg/l
Eastbridge	Yes	7/24/05-7/30/05	Weekly Avg	Ammonia	7.5 mg/l	9 mg/l
Ritter School	Yes	8/14/05	Daily Max	Ammonia	10 mg/l	13.9 mg/l
SS - Settleable Solids						mg/l - milligrams per liter
TSS - Total Suspended Solids						cfu - Colony Forming Unit
mlf - milliliters per liter						lbs - Pounds

0000886

Section 8 Water Quality Monitoring Data

Consent Decree language, pages 82-83: "Each Quarterly Progress Report shall contain... The water quality monitoring data and other information required pursuant to Section VII.D.1. (e)/(v)."

8.1 Sampling Conducted and Results

Appendix D lists all sampling that was conducted during the reporting period and the results thereof.

8.2 Projected Data Collection

During the fourth quarter of 2005, KUB will continue to monitor the 24 routine sampling locations in the sewer basins of eight area creeks. KUB will collect samples from the following sample locations during the fourth quarter:

Sample Locations by Creek Mile or Site Number

Creek Name	Creek Mile #	Creek Mile #	Creek Mile #
First Creek	0.45	2.57	6.33
Second Creek	0.36	1.54	5.76
Third Creek	0.87	2.08E	4.80W
Fourth Creek	0.55	1.33	1.78
Baker Creek	0.15	0.32	0.36S
Goose Creek	0.35	0.90E	1.50E
Loves Creek	0.85	1.89	3.45
Williams Creek	0.53	1.12	1.67

KUB will also pursue necessary actions to implement the investigative monitoring component to determine whether the pollution is related to sewer or non-sewer sources. Sampling for the investigative component will tentatively begin in January 2006.
