

# MAJOR PROJECT UPDATE

This project is being completed as part of KUB's Century II infrastructure improvement and replacement programs.

**PROJECT TITLE:** Sequoyah Hills Utility Projects

**UPDATE ISSUE DATE:** April 1, 2022

**UPDATE:**

**Phase 3 Wastewater Project** – KUB contract crews will perform work on the wastewater collection system in the following areas (No map this week due to the nature of remaining work in small areas):

- o Project punch-list items and restoration throughout Phase 3 project area over the next several weeks

**Bluff Drive Water Main Replacement** – All water main installation and clean-up/restoration has been completed on Bluff Drive. This will be the final update for shortline water system work in the Sequoyah Hills neighborhood.

**Utility Pole Inspections** – KUB contractor Davey Resource Group will be working in the Sequoyah Hills area over the next several weeks to inspect utility poles to see if they require maintenance or replacement. In some cases, this will involve boring holes to inspect the inner core of the pole and/or digging a shallow trench at the base to inspect the condition of the pole below ground. Crews will clean up the area after inspection. This work will not require electric service interruptions.
