WASTEWATER RESIDENTIAL
RATE SCHEDULE

Availability

Service under this rate schedule shall be available only to residential customers served individually through a separate meter or through a KUB-approved multiple meter configuration designed as a single billing point.

Rates

The Wastewater Service Charge shall be based on the customer's water meter size and monthly water usage with the following exceptions:

- 1) For customers whose wastewater discharge volumes are metered separately from their water usage, the metered wastewater discharge volumes will be used to calculate Commodity Charges under this schedule. The meter size used to calculate the Basic Service Charge under this schedule will be the equivalent water meter size as determined by KUB.
- 2) If neither the customer's water usage nor wastewater discharge volumes are metered, the average water usage and water meter size of comparable metered customers as determined by KUB will be used to calculate the charges under this schedule.

For meters greater than 5/8", the Customer Charges listed in the Wastewater Nonresidential schedule shall be utilized.

In the event more than one meter is utilized to determine billed consumption, multiple basic service charges may apply. Charges will apply without regard to ownership of the meter(s).

KUB may, at its sole discretion, bill wastewater using the same rates converted to a rate per gallon for usage measured in gallons: 1 Ccf equals 748 gallons.

Inside City Rates are applicable for wastewater services furnished to premises entirely within the corporate limits of the City of Knoxville. Outside City Rates are applicable for wastewater services furnished to premises entirely or partly outside the corporate limits of the City of Knoxville.
