

West Hills Area Natural Gas Main Replacement Project

Project Information Sheet

7/18/17

Project Scope

- KUB Underground Construction (UGC) crews will install approximately 33,000 feet of new natural gas main, along with valves and other related equipment, in four zones in the West Hills area (see map on back)
- This project will replace sections of steel natural gas main, originally installed in the 1950s, '60s, '70s, and '80s, with plastic

Project Details

- General sequence of construction:
 - UGC crew mobilization
 - Minor digging (potholing) to locate existing utilities and boring to install new natural gas main
 - Construction crews excavate to tie-up bored sections of main
 - Testing of new main
 - Connect customer service lines
 - Right-of-way restoration and stabilization
- Construction by Zones:
 - **Zone 1** - 7,200' of new main and 60 services
 - potholing/boring to begin second or third week of August
 - Construction crews begin third or fourth week of August
 - **Zone 2** - 9,100' of new main and 84 services
 - Utility locates/boring to begin second or third week of October
 - Construction crews begin third or fourth week of October
 - **Zone 3** - 11,100' of new main and 101 services
 - Schedule to be updated and follow-up notices sent February/March 2018 for work in zones 3 and 4
 - **Zone 4** - 5,600' of new main and 67 services
- Temporary lane closures may be required in the immediate work area to facilitate safe access for workers, equipment, and vehicles
- All lanes will reopen to traffic outside of the listed work hours
- Right-of-way restoration — Temporary restoration with straw matting or seed and straw to reduce erosion following work; final clean-up and restoration will occur once all work is completed in the zone

Project Schedule

- Late July 2017: Customer notification mailing
- August 2017: Construction begins; 18-24 month project (weather permitting)
- Project update mailing in February/March 2018
- Construction Schedule: Monday-Saturday, 7 a.m.- 7 p.m.
- Work schedules adjusted for major holidays

KUB Century II Program

Century II is KUB's long-range program to improve and maintain our utility systems for our customers. It will help move KUB into our second

century of service through sound planning, resource allocation, and continued or accelerated investment. Century II reflects KUB's commitment to provide reliable utility services and meet customers needs—now and in the future. Anticipating and addressing needs now provides long-term benefits. Visit www.kub.org for more details about the Century II program.
