Enbridge Repairs Natural Gas Pipeline

Enbridge, the company that owns the natural gas pipeline that ruptured in Smith County, Tennessee, completed repairs over the weekend and returned the pipeline to service. KUB thanks Enbridge for expediting repairs on the pipeline.

The interruptible customers who had been asked to curtail their natural gas usage have been advised they can return to normal operations. KUB thanks these customers for their assistance during the curtailment period, and for all our customers who participated in our voluntary curtailment request. Working together allowed our community to see minimal impacts from this event.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, gas, water, and wastewater services to more than 459,000 customers.
