### **Utility Construction to Close Section of Neyland Greenway *December 16 Through Mid-January 2019***

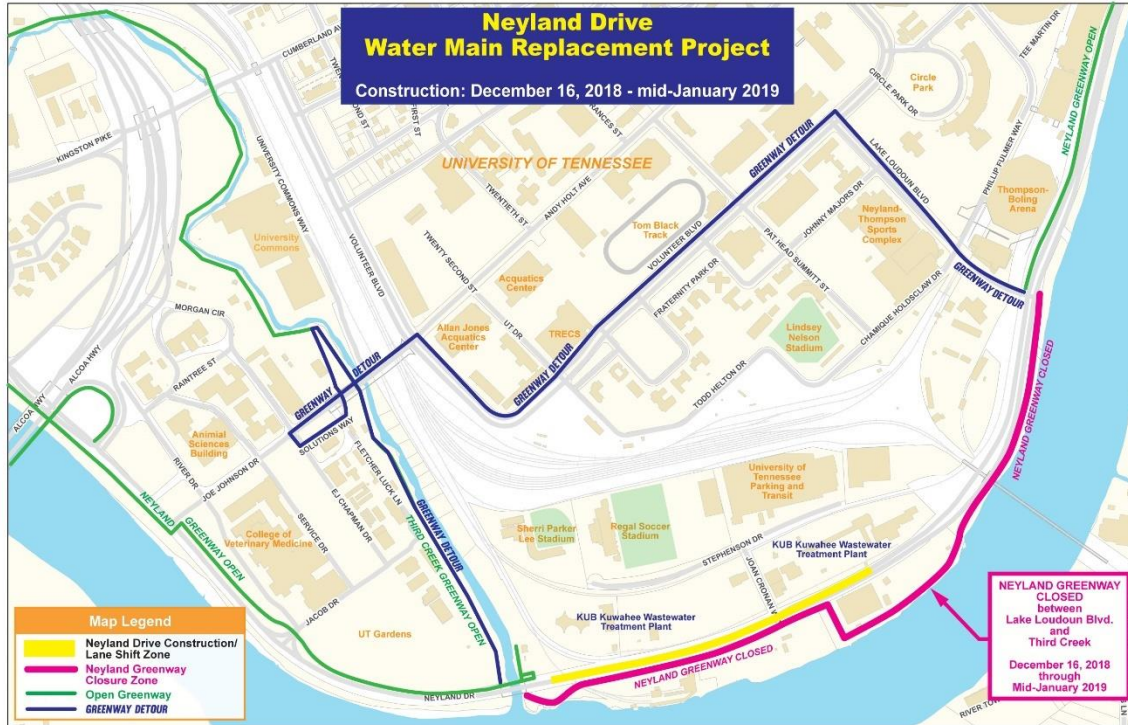

KUB and its contractor will close the section of the Neyland Greenway between Third Creek and Lake Loudoun Boulevard starting Sunday, December 16, and lasting continuously through mid-January 2019 (weather permitting), to facilitate safe conditions as work is performed on the water distribution system in this area.

A detour route around the closed section of the Neyland Greenway is set up on the University of Tennessee campus via Lake Loudoun Boulevard, Volunteer Boulevard, Andy Holt Avenue, Joe Johnson Drive, Solutions Way, and the Third Creek Greenway (see attached map).

To familiarize greenway users with the upcoming changes, signage will be placed at key locations along the detour route, and on the Third Creek and Neyland Greenways, the week of December 10. The impacted section of greenway will be closed continuously throughout the duration of the work. KUB asks park patrons to please respect the signage and barricades in place, and to avoid this section of greenway due to ongoing excavation, as well as the presence of construction equipment, materials, vehicles, and workers.

KUB thanks City of Knoxville Parks and Recreation for their assistance with this project, and its customers for their cooperation. Customers with questions or concerns can call 558-2331 after normal business hours to leave a message that will be followed-up with a call from a KUB representative by the end of the next business day.

See the attached map of the closure and detour areas on Page 2.

*KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, gas, water, and wastewater services to more than 459,000 customers.*
