

TRAFFIC ADVISORY

January 25, 2017

To: Local Media Representatives

From: KUB Communications

Re: Traffic Advisory – Lane/Road Closure for Utility Work [All closures and work are weather permitting]

(West Knoxville) Road Closure - Broome Road [January 26] – KUB crews will close a short section of Broome Road between Corteland Drive and Chadwick Drive, from 9 a.m. – 3 p.m., on Thursday, January 26, as work is performed on both the natural gas and water distribution systems in the area. Alternate routes include Chadwick Drive and Corteland Drive. Flaggers and signs will be on site to assist with traffic control, and Friday, January 27, will be used as a rain date if necessary.

(North Knoxville) Charles Drive Road Closure [January 27] – KUB contract crews will close a short section of Charles Drive between Inskip Road and Montrose Road from 7 a.m. – 5 p.m., on Friday, January 27, as work is performed on the wastewater collection system in the area. Alternate routes include Montrose Road, Fair Drive, E. Inskip Road, and Highland Drive. Local traffic access to driveways will be maintained, and signs will be on site to assist with traffic control.

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at www.kub.org.

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 453,000 customers.
