Re: Traffic Advisory – Lane/Road Closure Utility Work [All closures and work are weather permitting]

(Sequoyah Hills) Cherokee Boulevard Lane Closure [Rescheduled for June 4] – KUB natural gas system work requiring a lane closure on a short section of Cherokee Boulevard between Kituwah Trail and Cheowa Circle has been rescheduled due to weather for Friday, June 4, from 7 a.m. – 3 p.m. The scope of this lane closure will remain the same with the southbound lane closed while the northbound lane remains open to alternate traffic around the work zone. Flaggers will be on site to assist with traffic control, and follow-up advisories will be issued as necessary. Local traffic access will be maintained, and flaggers will be on site to assist with traffic control. The nearby Sequoyah Greenway will remain open while this work is performed. The roadway will reopen to normal traffic flow outside of work hours.

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at www.kub.org.

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 468,000 customers.
