From: KUB Communications

Re: Traffic Advisory – Lane/Road Closure Utility Work [All closures and work are weather permitting]

(East Knoxville) Road Closures [Weekdays, April 13 – July 3] – KUB contract crews will implement closures weekdays (excluding holidays) between 7 a.m. – 7 p.m. on the below roadways for ongoing wastewater collection system work in the area:

- S. Park Street between Marin Luther King Jr., Boulevard and Asheville Highway
- Holston Drive between Marin Luther King Jr., Boulevard and S. Chilhowee Drive (entire length not impacted at once)

Local traffic access will be maintained, and all areas will not be impacted at one time. Follow-up advisories will be issued as necessary.

Sequoyah Hills Area Traffic Impacts [April 13–17] – KUB contract crews will implement the below indicated traffic control measures during work hours, 7 a.m.- 5 p.m., Monday-Friday, April 13–17, as work continues on the wastewater collection system project in the area:

Intermittent road closures as needed during work hours:

- Taliluna Avenue between South Garden Road and Lakeland Drive
- Sequoyah Avenue between Southgate Road and Agawela Avenue
- Lakeland Drive between Taliluna Avenue and South Garden Road

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at www.kub.org.

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 464,000 customers.
