

## TRAFFIC ADVISORY

November 7, 2018

To: Local Media Representatives

From: KUB Communications

Re: Traffic Advisory – Lane/Road Closure Utility Work [All closures and work are weather permitting]

**(Fort Sanders Area) Laurel Avenue & Eighteenth Street Lane Closures [November 8]** – KUB crews will implement the below traffic control measures from 9 a.m. – 3 p.m. on Thursday, November 8, as work is performed on the electric distribution system in the area:

- **Laurel Avenue** – reduced to one lane of eastbound traffic between 19<sup>th</sup> Street and 17<sup>th</sup> Street
- **Eighteenth Street** – reduced to one alternating lane of traffic between Laurel Avenue and Highland Avenue

Both traffic control measures will not be in place at the same time and will only be implemented as necessary to complete work. Appropriate signs and channeling devices will be on site to assist with traffic control. Friday, November 9, will be used as a rain date if necessary.

**(South Knoxville) Road Closure – Candora Road [November 8]** – KUB crews will close a short section of Candora Road between Repass Road and Army Street from 9 a.m. – 3 p.m., on Thursday, November 8, as work is performed on the water distribution system in the area. Alternate routes include Navy Drive, Repass Drive, and Gayland Heights Road. Flaggers and signs will be on site to assist with traffic control. Follow-up advisories will be issued as necessary. Friday, November 9, will be used as a rain date if necessary.

**(West Knoxville) Hollywood Road Lane Closure [November 8]** – KUB contract crews will reduce a short section of Hollywood Road to one alternating lane of traffic between Papermill Drive and Sutherland Avenue from 9 a.m. – 3 p.m. on Thursday, November 8, as work is performed on the electric distribution system in the area. The southbound lane will be closed while the northbound lane remains open and is used to alternate traffic through the work zone. Flaggers and signs will be on site to assist with traffic control. Monday, November 12, will be used as a rain date if necessary.

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at [www.kub.org](http://www.kub.org).

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

*KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 457,000 customers.*
