From: KUB Communications and External Relations

Re: Traffic Advisory – Lane/Road Closure Utility Work [All closures and work are weather permitting]

(Downtown) Main Street, Locust Street, and Henley Street [Overnight, July 20-21] – KUB crews will implement the below lane closures overnight from 9 p.m., Tuesday, July 20, through 5 a.m., Wednesday, July 21, as work is performed on the electric distribution system in the area:

- Left turn lane northbound Henley Street at Cumberland Avenue closed
- Left hand, eastbound lane of Main Street at Locust Street. On-street parking closed.
- Right hand, southbound lane of Locust Street at Main Street. On-street parking closed.

Traffic flow will be maintained through the work zone. Follow-up advisories will be issued as necessary.

(Sequoyah Hills) E. Hillvale Turn Road Closure [Weekdays, July 21 – August 20] – KUB crews will implement a daily closure of E. Hillvale Turn from 6:30 a.m. – 4 p.m., weekdays, July 21, through August 20, as work is performed on the water distribution system in the area. Crews will also implement a closure of the Hillvale Turn intersection as needed to complete work. Local traffic access will be maintained. Follow-up advisories will be issued as necessary.

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at www.kub.org.

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 471,000 customers.
