Re: Traffic Advisory – Lane/Road Closure Utility Work [All closures and work are weather permitting]

(Downtown) Locust Street and Cumberland Avenue Lane Closures [Overnight, July 14-15] – KUB crews will implement the below traffic control measures overnight from 9 p.m., Wednesday, July 14, through 5 a.m., Thursday, July 15, as work is performed on the electric distribution system in the area:

- Westbound, left hand lane of Cumberland Avenue closed between Locust Street and Henley Street
- Southbound, right hand lane of Locust Street closed between Cumberland Avenue and Main Street. On street parking will also be closed in this location.

Traffic flow will be maintained through the work zone. Follow-up advisories will be issued as necessary.

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at www.kub.org.

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 471,000 customers.
