Re: Traffic Advisory – Lane/Road Closures for Utility Work [All closures and work are weather permitting]

(Halls Crossroads) Maynardville Pike Rolling Roadblocks [July 15] – KUB contract crews will implement a series of rolling roadblocks of northbound and southbound Maynardville Pike between Andersonville Pike and E. Emory Road from 8:30 a.m. – 4 p.m., on Wednesday, July 15, to safely pull spans of wire across the roadway. Traffic flow on both sides of the roadway will be stopped five times during work hours, for up to 15 minutes each time, to complete work. Appropriate traffic control operators and law enforcement will be on site.

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at www.kub.org.

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 464,000 customers.
