Re: Traffic Advisory – Lane/Road Closure for Utility Work [All closures and work are weather permitting]

(Downtown) E. Hill Avenue Lane Closure [November 8 & 9] – KUB crews will reduce a short section of W. Hill Avenue to one alternating lane of traffic between Walnut Street and Locust Street from 7:30 a.m. – 3 p.m. on Wednesday, November 8, and Thursday, November 9, as work is performed on the natural gas distribution system in the area. The westbound lane will be closed while the eastbound lane remains open and is used to alternate traffic through the work zone. Access to local businesses and parking lots will be maintained, and flaggers will be on site to assist with traffic control.

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at www.kub.org.

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 452,000 customers.
