

## TRAFFIC ADVISORY

January 17, 2020

To: Local Media Representatives

From: KUB Communications

Re: Traffic Advisory – Lane/Road Closures for Utility Work [All closures and work are weather permitting]

**(Downtown) W. Summit Hill Drive Lane Closure [January 21 & 22]** – KUB crews will implement the below traffic control measures daily from 9 a.m.-5 p.m., on Tuesday, January 21, and Wednesday, January 22, as work is performed on the underground electric distribution system in the area:

- Inside eastbound curb lane of W. Summit Hill Drive at the Walnut Street intersection closed to Street. One eastbound lane and both westbound lanes will remain open.
- Northbound traffic on Walnut Street will be able to make right and left turns onto W. Summit Hill Drive.
- Northbound traffic on Walnut Street will not be able travel straight through the W. Summit Hill Drive intersection.
- No left turns from southbound Walnut Street to eastbound W. Summit Hill Drive.
- Crosswalk closed at Walnut Street and W. Summit Hill Drive intersection.
- Crosswalk between Crowne Plaza and TVA Towers will remain open.
- Left turn access to Crowne Plaza from eastbound W. Summit Hill Drive will remain open.

Traffic control devices and signs will be set up on site to assist with traffic control, and follow-up advisories will be issued as necessary.

**Sequoyah Hills Area Traffic Impacts [January 21-24]** – KUB contract crews will implement the below indicated traffic control measures during work hours, 7 a.m.- 5 p.m., Monday-Friday, January 21-24, as work continues on the wastewater collection system project in the area:

- Intermittent road closures as needed during work hours:
  - Whitlow Avenue between Bluff View Road and Cedarhill Road
  - Taliluna Avenue between Lakeland Drive and South Garden Road

Some listed closures may extend beyond the scheduled times depending on the conditions encountered during excavation and construction. Appropriate traffic control measures will be in place at each location to assist motorists traveling in these areas. Due to the ongoing presence of workers and equipment, motorists are advised to use caution and expect temporary delays in these areas. More information on this and other KUB construction projects can be found at [www.kub.org](http://www.kub.org).

Tennessee's **Move Over Law** requires motorists approaching a utility vehicle with flashing lights to move over if safe to do so, creating an empty lane buffer. When changing lanes is not possible, motorists must reduce speed.

*KUB is a municipal utility serving Knox and parts of seven adjacent counties and provides electric, natural gas, water, and wastewater services to more than 464,000 customers.*
