

Addendum No. 1

Project: Site Preparation – Sharp’s Ridge Radio Tower
Control No: 1163
Issued: To all listed plan holders
Date: February 21, 2018

This addendum forms a part of the Agreement described above. The original Contract Documents and any prior addenda remain in full force and effect except as modified by the following, which shall take precedence over any contrary provisions in prior documents.

1. Section 00001 – Table of Contents

- DELETE Section 00001, page 2, and REPLACE with the revised version supplied with this addendum. The original version is obsolete, and the following changes have been made:
 - DELETED specifications 02415, 02580, and 02583, because they do not pertain to this project.

2. The following are questions received prior to cut off along with their responses:

Question: Is there a detail for the retaining walls?

Answer: There are no details drawn by the engineer for the retaining wall, but the heights of the wall are on the drawing I provided Top of Wall (TOW) and Bottom of Wall (BOW) - shown in 2' intervals.

Question: On the west wall, the plan shows the top wall elevation @ 73.67 and it also shows the bottom elevation @73.67 at the north corner. The south end elevation is similar in nature. It shows the center of that wall @74.00. Can you please verify these elevations.?

Answer: Yes, these elevations are correct - there may not be a wall at the property line - the engineer is just showing the elevation here.

Question: How wide does the wall need to be?

Answer: 16" will be adequate

Question: Is it a concrete wall?

Answer: It can be concrete or blocks

Question: Does it need a footer?

Answer: If not concrete, no footer is needed, just compacted

Question: Does the site and the driveway have a stone base? If so, what type of stone?

Answer: Yes, 57 stone

Question: Is the site staked now?

Answer: Yes

Question: Is the chain link fence that is shown a different site?

Answer: The chain link fence is a different site - it's only on the drawing for reference

END

Each Bidder/Proposer shall acknowledge receipt of this addendum by affixing his signature below, by noting this addendum on his Bid/Proposal Form, and by attaching this addendum to his Bid/Proposal. **Failure to acknowledge this addendum could be cause for bid/proposal rejection.**

ACKNOWLEDGMENT

The undersigned acknowledges receipt of this addendum and the Bid submitted is in accordance with information, instructions and stipulations set forth herein.
